M. Naqib Rahimi, Ph.D.

Naqib.Rahimi@stonybrook.edu Naqib.Rahimy123@gmail.com
Naqib Rahimi http://naqibr.github.io/ +1-631-384-4156
Naqib Rahimi Naqib Rahimi
2027 Himrod Street, Ridgewood, New York 11385

Education

2021 – Now **Ph.D. Civil engineering., Stony Brook University**
Thesis title: *Computational mechanics of extreme events: Advanced multi-physics simulations with Smoothed Particle Hydrodynamics, Isogeometric Analysis, Micro Plane Model, and Phase Field.*

2019 – 2021 **M.Sc. Material Science and Nanoengineering, Sabanci University**
Thesis title: *Peridynamic Modeling of Internal Features and Interfaces for Material Toughening.*

2015 – 2021 **B.Sc. Mechanical Engineering, Inonu University**
Thesis title: *Energy Assessment of Bio-wastes in Afghanistan's Kunar city.*

2014 – 2018 **B.Sc. Civil Engineering, Inonu University**. Honors degree
Thesis title: *Excel-based Programming in Civil Engineering.*

Job Experience

May 2024 – Aug 2024 **Software Developer Intern,** ANSYS-LSDYNA.

May 2023 – Aug 2023 **Software Developer Intern,** ANSYS-LSDYNA.

Jun 2016 – Aug 2016 **Engineer Intern,** Guven Constructions.

Jun 2017 – Aug 2017 **Engineer Intern,** Inonu University Department of Constructions.

Projects

2020 – 2022 **Parallelized Hybrid Particle Methods Supported by Innovative Non-local Models: Applications to Fluid-Structure-Interaction Analysis**
Research Assistant (Project ID: B.A.KM-21-02377)

2021 – 2022 **Development and Experimental Validation of Parallelized Hybrid SPH-PD Particle Method for Fluid-Solid Interaction Solutions of Hydro-elasticity Problems**
Research Assistant (TUBITAK Project ID: 121M425)

2019 – 2021 **Structural Health Monitoring of Sandwich Composites by Combining Peridynamics and iFEM Methodology: Theoretical Modeling, Numerical Analysis, and Experimental Verification**
Research Assistant (TUBITAK Project ID: 217M207)

2017 – 2018 **Design of Unmanned Ground Vehicle for Anti-Terrorism and Defense**
Research Assistant (BAP Project ID: FLO-2018-1028)

Skills

Coding C++, Python, Fortran, MATLAB, CUDA, and FEniCS.

Methods SPH, Phase Field, Finite Element, Isogeometric Analysis, Peridynamics.

Softwares ANSYS, SolidWorks, AutoCAD.

Post/Pre-processing ANSA, LS-PrePost, ParaView, GiD, and Corel Draw.

Skills (continued)

Languages — English, Persian, Turkish, Hindi, and Pashto.

Awards

2024 **IACS Junior Researcher Award**
Presented by the Institute for Advanced Computational Science (IACS) to PhD students for their outstanding research achievements.

SBU Civil Engineering Research Merit Award
Recognizes exceptional research contributions from a graduate student in the Department of Civil Engineering at Stony Brook University.

2023 **First Place Award**
Awarded first place by the Fluid Dynamics Committee of the U.S. Engineering Mechanics Institute (EMI), a technical committee of the American Society of Civil Engineers (ASCE).

2019 **Summa Cum Laude Award**
Ranked 1st out of 940 students in the Faculty of Engineering, Inonu University.

2018 **First Place in National Undergraduate Thesis Competition**
Awarded by the Scientific and Technological Research Council of Turkey (TUBITAK) for outstanding undergraduate thesis work.

2017 **Young Merit Award**
Presented by the MISA Organization for exceptional academic and personal achievements.

2011 **Silver Medalist in Mathematics**
Achieved silver at the International Science Olympiad (ISO) in Abuja, Nigeria.

2010 **Gold Medalist in Mathematics**
Awarded the gold medal at the National Mathematics Olympiad in Afghanistan.

Scholarships

2019 **Master's Scholarship**

2015 **Undergraduate Scholarship (Mechanical Engineering)**

2013 **Presidential Scholarship (Civil Engineering)**

2008 **High School Scholarship**

Teaching Experience

Jan 2024 – May 2024 **Steel and Reinforced Concrete Design I (CIV312)**

Jan 2021 – Jul 2021 **Calculus (Math102)**

Sep 2020 – Jan 2021 **Manufacturing Processes (IE309)**

Jan 2020 – June 2020 **Int. to Material Science (ENS205)**

Jan 2019 – Jan 2020 **Calculus (MATH102)**

Jan 2019 – Apr 2019 **Dynamics (DNK201)**

Research Publications

Journal Articles

1. **M. N. Rahimi** and G. Moutsanidis, "Iga-sph: Coupling isogeometric analysis with smoothed particle hydrodynamics for air-blast–structure interaction," ***Engineering with Computers***, pp. 1–22, 2024. DOI: https://doi.org/10.1007/s00366-024-01978-0.
